THANKSGIVING.

The Way Jim Wiggins Will Entertain Visitors in Empire.

On the 29th and 30th of the present month Jim Wiggins will turn loose the biggest lot of sport ever seen in Empire.

TURKEY SHOOTING.

The distance will be 200 yards, with rifles, at 25 cents per shot, nobody barred. The above pictures represent the style of turkeys.

CHICKEN SHOOTING.

These pictures are not fairs, exactly, but will suffice to show the breed he will put up. The distance will be 45 yards, two shots for 25 cents, nothing larger than No. 6 shot allowed.

THROWING AT DUCKS.

Ducks will also be put up for expert throwers to throw sticks at; ten cents per shot will be charged.

You will also get a chance at chickens with their heads out of a box, 30 yards distant, with pea rifles (22 caliber), 2 shots for a quarter.

An invitation is extended to the crack pigeon shots to try their luck at trap shooting. Matches and rules can be made on the grounds. Nobody barred in any of the above events.

MASQUERADE.

On Thanksgiving night there will be a masquerade at Wiggins' Hall, and costumes can be had at the hall. He has arranged to have a lot of new and attractive costumes on hand. Tickets one dollar, admitting gentleman and ladies.

Mrs. Kohl will have a big spread ready for hungry people, and there will also be plenty of stable room for those who come by private conveyance.

Jim Wiggins will spare no pains or expense to make this the grandest Thanksgiving Empire ever saw.

For fine watch and jewelry repairing go to Golden's. First-class work, low prices and prompt attention always guaranteed.

Mrs. Gray was brought down from Virginia yesterday for dispensing booze to aborigines.

Of course there would be a better attendance at the Midwinter fair if the railroad company would extend the limit on round trip tickets.

The jury in the case of R. M. Wilson, charged with killing Robert C. Rogers on the Tule river on July 27th last, returned a verdict of murder.

Bryson has introduced oyster cocktails. They come in small bottles—just a good-sized drink—and are hotter than the side entrance to sheol.

It is said that a large body of ore has been struck in Yellow Jacket. Isn't it nice to have these strikes occur just at the time assessments are due?

The World's fair medals will not be given to the lucky exhibitors until next Summer, as the contract for manufacturing them has not been let as yet.

Hard to Follow.

The Sacramento Bee is the hardest paper in the country to keep track of. It comes out one day a five column paper, the next day it looms up with eight or nine columns, some times there are four pages, and other times there are eight. One issue will contain no editorial matter and the following day there will be two or three columns of it, and all able and sparkling. However, one is always able to tell on which side of the fence the Bee happens to locate itself on any public question.

A Five Ton Exhibit.

A block of travertine weighing five tons came from the quarry of W. E. Lindsay yesterday. The block is to be sent to the Midwinter Fair, and was hauled from his quarry near Bridgeport by a ten-horse team.

An Apprentice.

Our wife is learning the art preservative, and we are making more fun than a box of monkeys. She knows all about the business has learned more about the business in two weeks than we found out in ten years. She don't see why they do things this way, and knows it would be better to do things some other than that pursued by every printer since Adam was born. Poor girl, she'll know more, and not be so smart either, after we have shown her the type vermine; had her dig down in the hell box about a foot looking for italic periods and made a few trips around the corner looking for a three-corner chase, etc.

When we speak of the illegitimate type she is horrified, and declares she believes every word she ever heard about printers being tough is true. Ask her for the quoin, and she wants to know if you mean those two nickels she had to ask for six times last Summer. Calls the leads tins, and the galley, plates; and she can't tell the shooting stick from a cork screw. When we speak of making up a form she is as mad as blazes, and wants to know what woman we are talking about. All the phrases familiar to every printer sound strange, and she thinks we are poking fun at her, but if her health holds out she will make a good type, as she can almost set a "plateful" a day now.—Sammer Dispatch.

The APPEAL's female comp. calls leads separators, spaces she alludes to as blanks, says "sugar" if things go wrong; she says spill instead of pi, and objects strenuously to being called a "cow" printer.

Starving Miners.

Detroit, Nov. 23.—In Michigan, which is the center of the gigantic Mineral range, 5,000 miners have been out of employment since June. Eight hundred woodchoppers engaged in the forests have also been idle. Fully 20,000 persons are on the verge of starvation. They have nothing to live on now but a few beets and potatoes.

The distress in Ironwood is greatest because it suffered last summer from an epidemic of typhoid fever. Not less than 1,000 children are not only hungry, but cannot leave the miner's cabins because of their lack of clothing.

Quebec, Nov. 23.—The greatest destitution prevails among the Indians all over Canada, and from Labrador to British Columbia come tales of suffering. Priests and missionaries are vainly endeavoring, in a small way, to relieve the misery which has only just begun with the arrival of cold weather and the Government will be appealed to.

One Indian town in the northern part of the province of Quebec has been wiped out by reason of famine. It is already known that more than 400 Indians have perished because of hunger. It is expected that thousands must inevitably starve before winter is over.

A Gruesome Discovery.

A dispatch to the Chronicle from Carlin, says:

The skeletons of a man and a horse were found a mile west of here yesterday by a man working in a quarry. The clothing on the man had rotted, and \$1.75 in American money was found in a pocket. There is no clue to his identity. He had probably been dead a year or more. The saddle was cut to pieces. An investigation will be had today.

The Poor Farm.

Superintendent Carney reports the raising of eight tons of potatoes and five tons of grain at the Poor Farm this year, though it had been a good year the crop would have been much larger. Enough other table vegetables were raised to supply the wants of the inmates, and altogether the County wards have nothing to complain of.

Corbett and Mitchell.

St. Louis, Nov. 23.—A movement is on foot here to raise a purse of \$20,000 to \$25,000 to have the Mitchell-Corbett fight come off on Colonel R. C. Pate's racetrack at the City of Mexico, in case the Florida officials forbid it at Jacksonville. Colonel Pate is favorable to the project.

The Workmen's Ball.

Great preparations are being made by the workmen to make their dance a great big success on Thanksgiving Eve, and all who attend will discover that the managers spared no pains or expense to make it an enjoyable affair.

COAST NEWS.

The selection of a jury in the case of Chris Evans, the train-robbler, is in progress. If the jury has been selected.

The case of C. M. Sweeney, charged with forging county warrants, is on trial at Port Townsend. Sweeney belongs to one of the oldest and best families in that town.

O. W. Johnson, sixty-five years of age, who is stated to have been an agent for a San Francisco newspaper, committed suicide at Garberville, Humboldt county, last week.

While working on a receiving vault in the cemetery at Sacramento Tuesday, Andrew Larson's neck was broken by the collapse of the brick roof under which he was working.

The murder trial of Charlie Button has begun at San Bernardino. The charge is that Button first stamped Gus Boho on the head with the heel of his boot and afterward shot him.

E. C. Gove of Spokane lost all his money in a faro game at Helena, Mont. He then drew checks on the banks and the faro-dealers cashed them, but when presented, the banks informed the holders that they had been ordered not to pay them. Suit was entered and the Judge ruled that money loaned for a purpose immoral or prohibited by law could not be recovered, but a faro game did not come within this rule. It was not stipulated that the money, when advanced should be used for gambling, and Gove could do as he pleased with it. He gave judgment for the plaintiffs.

The World's Fair.

Chicago, Nov. 23.—Between this time and January 1, 1894, the Board of Directors of the World's Fair hope to wind up affairs and go out of business. At a meeting of the South Park Board yesterday the directors asked the Commissioners to name the amount of money they wanted to take everything belonging to the corporation and absolve it from all liability.

The proposition was a surprise to the Commissioners. They promised to figure on the matter and submit a proposition to the directors. The directors told the Park Board that they were anxious to wind up their affairs, and intimated that they would pay for the absorption. If the buildings are accepted by the Commissioners they will probably stand in Jackson Park through next Summer at least and possibly several years.
